

Adding capacity to relieve wireless congestion.

Have you ever been in this situation? You have full bars on your phone, yet you can't place a call, send a text, or watch a video? Over 56% of Americans now use smartphones*, and as that number continues to rise, wireless congestion will be a more common occurrence. Here is what causes it, and how we can help.

CONGESTION vs. CAPACITY

*"Smart Phone Ownership 2013," Pew Research Center, 6/5/13.
